Summary

I'm a UX/UI Designer that strives to uncover solutions through creative, effective, and efficient designs. My process is derived from a background in banking/finance, technology, and education where **keeping the end-user in mind through the entire process is key.**

Experience

Bloc.io | UX/UI Design Apprentice

Long Island, New York / Remote | October 2017 - Present

- Applied practical UX design principles to web and mobile app projects
- Created mobile apps and responsive websites for various products
- Designed and coded personal portfolio
- Applied UX research principles to conduct effective data analysis throughout the progression of various projects

Bethpage Federal Credit Union | Technical Specialist / Facilitator

Long Island, New York | June 2016 - June 2017

- Collaborated on technical projects and initiatives for both internal use and for our members (customers).
- Designed, developed, and maintained training content for staff
- Conducted training classes utilizing in-person techniques and digital teaching techniques via GoToTraining
